FREELANCER · SELF-EMPLOYED

UI/UX designer & web app developer.

I design interfaces and 3D visuals, then build them into live, deployed sites. Third-year B.E. Computer Science student, working with clients as a freelancer.

Bachelor of Engineering (B.E.), Computer Science and Engineering

SEA College of Engineering and Technology, Bangalore (VTU)

3RD YEAR · 5TH SEM

EXPECTED 2028

02 Experience

Freelance UI/UX Designer & Web App Developer

Self-employed, working for clients

PRESENT

- Design and build websites and web apps for clients, covering UI/UX, 3D visuals and front-end development.
- Own each project end to end: requirements, design, build and deployment.
- Deliver responsive, live sites hosted on Vercel.

03 Projects

LifeXP

A game-style web app, designed and built end to end and live on its own domain.

lifexp.tech ↗

NEXORA

A competitive brain-game website with an AI mascot (NEXO) and six arenas. Designed in Figma, built as a responsive front end and deployed on Vercel.

Live site ↗

Prism

A live web project, designed and developed end to end and deployed on Vercel.

Live site ↗

Planet Zero

Currently being built.
